## THE DYNAMITE FIENDS.

## INCREDIBLE DEVELOPMENTS IN BRITAIN.

Still Bounds of Desecration Ripe for the Gallows.

the Dynamic Conspiracy Laid Bare.  
the Devilish Malony of Irish Amer.  
Irene Assassins.

London, April 1.—The police made a raid on a house in Birmingham last night, and found a nitro-glycerine factory in full blast. The proprietor, an Irish-American named Whitelaw, was arrested and removed.

The apparatus for preparing and mixing the explosive compound was constructed on scientific principles, and with a cunning and art which clearly showed its inventor to be not only a thorough student in chemistry and machinery, but also an adept for experiments for avoiding detection and preventing discovery. There was a shrewdly devised method for carrying the fuses up the chimney and obscuring the odors. It is learned that the premises, which are on Leaden street, were taken two months ago by Whait, who had a sign hanging out in front of his place indicating that his business was that of paper hangers. Whitelaw is now in police confinement.

A semi-weekly newspaper, called the City Press, in its edition published this evening, asserts that it received a letter without signature, in which the writer threatened to blow up the GOVERNMENT OFFICES.

The affair was referred to the police, and last night detective officers, assisted by members of the Irish Secret Service, succeeded in arresting a man at his house, with a quantity of stuff supposed to be dynamite.

The arrest has created a decided sensation. The detective followed the prisoner from Manchester, as he appeared to be a suspicious character, and when the letters appeared he at once suspected, being then in the vicinity of Fleet street. He is now at the Bow street station to await the report of the army experts at Woolwich, who are engaged in a chemical examination of the article.

The day before the arrest was a most important one. This is evidenced by the fact that since then no adequate precautionary measures have been taken. Special attention is now being given to the protection of the buildings in which are located the offices of the Ministry and all public offices. Extra sentinels have been placed at Windsor Castle. At the post office, policemen and detectives are keeping close watch of suspicious persons.

At 8.30 p.m.—The exciting events of the day crowded us so far that their importance could scarcely be reflected, until the inner lights of night admitted a complete summing up. The surprises include unearthing the most important dynamite factory ever discovered; the arrest of four rats-breeders in London and one in Birmingham; an attempt on the Government magazine in Ireland; the reception of an incendiary letter in London and the discovery of an exploding and automatic scheme of nihilists to blow up the Czar's residence in Moscow. The excitement over these affairs was not confined to the Government Office, but was apparent on the street to even the most casual observer. The prompt action of the Government office was highly commended. The Post Office and neighboring Government property was placed under increased guard, etc.

THE SOCIAL CRIMES AT WINDSOR.—A few young scoundrels, who were sent there in a private manner. This precaution is made necessary because the Government offices closed late last night that in connection with the discovery of the dynamite factory in Birmingham, numbers of the conspirators were already on their way to Windsor from Birmingham. It is stated in official circles that there is reason to believe that the whole insidious and dynamite conspiracy here and in America will now be laid bare and the number of arrests will shortly increase. The man first arrested last night near Fleet street had engaged rooms on Southampton street, corner of Strand, giving the name of O'Connell, and stating that he was a medical student. Subsequently he said, his real name was Norman. The first inquiry for name was made by an elderly man.

A man of EXPERTISE.

was taken to Norman's lodgings by a person of which appearance, who looked more like a policeman than the party or friend of a student. It is believed that this individual and the elderly man have been captured in the persons of two men arrested at Birmingham. To-day one of these men had in his pocket and sewed up in his clothing a large sum of money, a portion of which was American coin. Street raters made free of American names, and connected many British Americans with the plot. One of the Birmingham prisoners had secured information of Wilson. His movements, however, excited no suspicion among his neighbors that he left his room yesterday, saying it was his intention to go to Wolverhampton. When he returned at noon to-day he was surprised to find

FIVE DATES TO

awaiting him. Norman undoubtedly came directly from Birmingham. The place where he was stopping was just over the office where is printed the Court Circular. The proprietor of that sheet recently received letters containing dire threats, the origin of which he has no difficulty in tracing to the prisoners. The fourth arrest of the day was Harry Dalton, taken into custody to-night. He came from the United States two weeks ago. The Home Secretary, in the Commons, outlining the facts, confirmed what had up to this time been merely rumor, that Norman had been arrested. He added that 150 pounds of highly explosive liquid had been found in Norman's quarters, stored in skillfully devised rubber bags. It was confirmed that

DISCOVERY OF A DYNAMITE MANUFACTORY in Birmingham, and gave particulars of the affair substantially as related in these despatches. He said further that a considerable amount of the same kind of explosive was discovered in the rooms of the Lambeth prisoners, and a part of the money on one of these bags was in American bank notes. The rubber bags found in Norman's quarters contained nitro-glycerine in sufficient quantities to

blow up ANY TOWN IN THE KINGDOM.

The police believe Norman was engaged in the plan to carry out the dynamite doctrines which are particularly fostered by O'Donovan Rossa. Harry Dalton is a man of short stature and peak-marked. He was an occasional caller at Bawle's American Reading Room, 14 Strand. His arrest was effected owing to information derived from papers found upon other prisoners. It is believed by the authorities that Dalton is an emissary of a dynamite factory in America. The man arrested with Wilson is named Gallagher. Papers found upon him prove his connection with Whitehead. The Welsh authorities pronounced the compound found at Lambeth to be nitro-glycerine, and identical with that found in Norman's quarters. Gallagher's pertinacity was

PACKED WITH EXPLOSIVES.

Dalton is suspected being the perpetrator of the outrage at the office of the Local Government Board, Westminster. The prisoners were not arraigned Thursday, because, in view of the documents seized, the police decided to make several other arrests, which they thought might be frustrated if the evidence in their possession was made public. Norman describes himself as a coachman. Wilson claims to be a clerk, and Gallagher a physician. The police believe the Birmingham factory signs of a series which exists in the great towns.

THE PHOENIX PARK MURDER.

DUBLIN, April 1.—At the trial of the prisoners charged with the Phoenix Park murders, a photograph of a man named Tyman, recently allied to the name of Tyner, will be produced. This photograph has been identified by James Carey, informant, as being the man who was a coachman to a clerk, and Gallagher a physician.

The police believe the Birmingham factory signs of a series which exists in the great towns.

Building operations have set in, in  
anticipation of opening of the railway.

The Indian style of manufacturing  
and the blossoming is again in vogue, on  
the part of the Toronto Land Company,

which is now being carried on by three  
men.

A young lad said that at a prominent house  
in the south end of the place, a fire church service  
was held every day, and where the upper  
parts of the house lay left and honey,

and the lower portion, while church services  
were performed, and upon reaching

the point in the sermon, the cock in the

chimney reported from near Stratclair,

the height of which is said to be hardly

more than a yard, a child and

youngster, were said to be doing well.

A place of birth, for a new place, is re-

quired, and the great number of boys and

girls running about, which often come

out at night, making the night hideous, jar-

ing the nerves, and effectively preventing

sleep.

A variety of birds are beginning to flock

about, which affords a cheery indication of

spring's approach.

Two pairs of "Andijons" are said to

have made their appearance in a certain

place in the St. Paul River country, by

heating them on hot plates heated to an un-

unnatural degree of heat, around which the

birds circle and watch with delight the

movements of the vermin.

It is claimed that eggs from a noted henry

in the south end, should command

the highest market price during Easter time.

In one of which, the following incident

ensued to a nay.

A certain party, whom

for the nay, I will designate as No. 1, came to one of the stores the other day with a couple dozen of eggs, and upon being asked what he wanted to do with them, stated he wanted to buy up all the dozen, at double price they brought in. Not content with this, No. 1 made further enquire-

ments, and at another place he could have

eggs at 5 cents on the dozen.

Upon returning home and relating

the transaction, a consultation was imme-

diately had, which resulted in his being ap-

pointed as a store keeper No. 2, with a

couple dozen to be given up, and demands al-

lotted him to the rest.

Don't forget the LUXOR Meeting to-night at the Grand View, at 8 o'clock.—Adv.

The furnace had the engine and apparatus out this afternoon and filled all the tanks.

Exploding of the wheels of both horse-rails collapsed yesterday but was repaired in a few hours.

Mr. W. H. HARRISON, of Winnipeg, dealer in the Bayonet planes, Guelph manufacture, is in town, on a business trip to Rapid City.

Yesterdays was an off day at the Police Court, there being no cases for disposal. The Registrar signed and adjourned the court.

Mr. BERNETTE, Dominion Immigrant Agent, at Brandon, who has been absent Montreal for some time, is expected to return to-day or Monday.

The regular afternoon train brought seven cars, five of them passenger, with about 300 persons on board, the majority of whom got off here.

The warm sun yesterday caused the snow to disappear at a rapid rate. A few more days of such weather will clear the surrounding hills of their wintry mantle.

Mr. A. PETERSON, of the Brandon Book-store, has forwarded a sample of an ex-quisite one of his note paper and envelopes with no name on it.

Mr. MCGOWAN, representing the wholesale grocery firm of WATT & CO., of Brampton, that is at the Grand Central, and is taking orders here for his firm.

The Partially frozen, by yesterday's mail, says Mr. J. C. Smith leaves his wife in England and comes this week to Manitoba to locate in Brandon.

In view of the impending spring freshets, the piers and breakwaters of the First Street bridge have been materially strengthened. Danger is anticipated.

At a recent meeting of the School Board it was decided on Tuesday evening, 24th instant, when a teacher in the place of Mr. Jeffery, resigns, will be appointed.

McGOWAN & GUNN, of Salt Lake, brought into town yesterday to head of cattle which are for sale. They have about 150 head still at the farm, prepared for the market.

Mr. BURGESS yesterday located the outlines for the new building to be erected by D. Scott & CO., on the corner of 6th Street and Rosser Avenue, for a furniture warehouse and workshop.

This month is to be a good month for the only treasury as far as receipts from the Police Court go. Though yesterday was only the 1st of the month, the Chief's books show a record of seventeen cases already.

Mr. E. C. Brooks, agent of the York Colony was in the city yesterday on his way west, whence he proceeds a colony of 60 or 70 settlers on their way to the Colony's lands, ranches 22 and 26 ranges 2 and 3.

Mr. C. VANDERKAM, who has his abode at the Royal Hotel, desires our reporter to state that if the party who separated one of his overcoats will call round at the hotel he can have the other one, as it is of no further use to the owner.

Sixty of these invertebrates and unspeakable malfit will make a practice of hanging on passing signs will come to grief out of doors. The police should make an example of them before they furnish food for the undertaker.

At the tea given by the ladies of the Presbyterian Church last evening there was quite a large attendance. During the evening addresses were delivered by Rev. Mr. Livingston and Dr. M. D. Martin. The proceeds at 12 cents per head reached \$20.

Mr. BURGESS, Secretary of the School Board, has issued a notice calling a public meeting for the 11th inst. for the purpose of selecting a member on the Board to Rev. Mr. Farris, resigned. The only candidate nominated is Mr. D. M. McMillan.

During the month ending March 31st last, there were thirty sets brought under the notice of the Police Magistrate by Chief McMillan and his assistants. The total amount of sets levied and collected as the result was \$20.25. The thief is evidently earning his salary.

A most-troubling is badly needed in connection with the fire hall. Without proper appliances for drying heat it is certain to soon set and become useless. As a measure of economy the Council should take prompt steps to provide the necessary building.

The Property Committee of the School Board had a meeting yesterday afternoon, when it was decided to instruct the Secretary to notify the Baptist Church authorities that they will be allowed the use of the room therefore used by them, at the rate of \$2.00, weekly, at the terms of occupancy by the Board is uncertain, the church to provide seats no abatement will be made in the rent already accrued.

Six immigrants occupied the Dominion immigrants' quarters on Monday last. Two of them found employment and went west yesterday, and the others will leave as soon as they can find occupation. After this week the building will probably be brought into constant requisition.

A MAN named Stewart Robinson yesterday lost a pocket-book containing \$30, \$40 of which was enclosed in a letter which he was on his way to post. On discovering his loss, he immediately retraced his steps and had the unusual good fortune to find the missing wallet, with the contents intact, where he had dropped it on Ninth Street.

The municipality of Riverside met on Thursday last, at Councilor Scott's house, sec. 31, 5, 10, the Warden James Lang in chair. Present Councillors Dunlop, McMillan, Scott, Shaw and James. A by-law under the Herd Law was passed, the balance of the business being of a routine character.

By a despatch received at a late hour last night, we regret to learn that a collision had occurred between a freight train going south and the passenger train north. The driver of the passenger train was instantly killed, and one passenger seriously injured. Both engines were badly wrecked. No further particulars.

We beg to request those in charge of the different religious congregations in the city, to hand or send to the MAIL office on Friday afternoons, the appointments for their Sunday services and any further information which they may deem of interest in connection with church matters, which will be cheerfully given a place in our columns.

FARMERS to the south of us are getting ready for seeding, which is expected to be commenced this year somewhat earlier than last, as there is very little frost in the ground and the snow is disappearing rapidly. Last year seeding was commenced from 25th April to May 20th, according to locality. Farmers in the Turtle Mountain district will be the first to commence operations.

A LITTLE CHILD of conductor Gilbert, who lives over Gilchrist's shop, near the Richard Block, Rosser Avenue, got lost this morning about 11 o'clock, occasioning great anxiety to the family. The services of the police were called in, and a number of citizens engaged in the inquiry. The little one was finally discovered about 7 o'clock last evening, and returned to its anxious and happy parents.

A MARTIN Indomitus was occurred last afternoon on 6th street. A team drawing a load of boxes was proceeding up the street from the station, and while crossing Rosser Avenue, one of the boxes tumbled off and broke on the street, when half a dozen hats which had been confined within made their appearance, and promptly struck out in liberty in as many different directions. They were finally recaptured after an expenditure of much puffing, perspiration and preferably on part of the late teamster, who went his way leaving a trail of blue sulphur in the air behind him.

DURING the month of March there were registered with city clerk Martindale, as registrar of vital statistics, thirteen births and two deaths, the latter being children, one 2 years and 5 months, the other 6 days. This is a good healthy showing. During the first quarter of the year only nine marriages were registered. A comparison with the marriage notices on our files shows that a good many of the matrimonially-made-happy must have lost sight in the honeymoon the duty of registering as required by law. When they get down from the clouds they will do well to remember that failure to register marriage within three months renders them liable to a fine.

This would be wit of Stilton & Sutherland's Sun false foul of Mr. John Peter Grant and his lecture. This sneaky crit, who has been palming off old superannuated jokes on a small but select and long-suffering circle of readers for the past six months, as the spontaneous effusions of his gifted intellect, is too easily convinced with envy at John Peter's success. Heretofore he never told his grief, but he's come silent, like a worm in the bud, feed on his damask (all case) cheek. John Peter, however, is apparently too much for him, and the green-eyed monster has evidently usurped the seat where his reason is supposed to be located.

A MAN named Jones, who has a wife and family of four little children, has been confined by illness, resulting from a severe attack of inflammation of the lungs, in the Government immigration building, since October last. He is unable to work, and will be so for a long time, if not permanently. After this week the building will no longer be a suitable place for a sick man with a wife and family, and the case is one which should engage the attention of the charitable disposed.

It seems to us that the better course would be to find homes for the children among the many who would doubtless be glad to adopt them. The wife will doubtless find employment, and Mr. Jones would have a better chance of recovery the general hospital at Winnipeg.

The many readers of the Mail will do well to call on Scott & Paisley, the Leading Dry Goods House of Brandon, and see all the new things now arrived. The prices are small but the quality is very large. Everything you desire you have, Blouse and Trouser Cloth, Cambric, Dress-Goods of all kinds, Fancy Ties, Silk and Lace, Gros Graine Silks, Brocaded Satins, Colored Satins (all shades), Jetted Ornaments, Corsets, Prints, White Cottons, Embroidery, Kid Gloves, &c. **NOTICE TO THE WORKING MEN, FARMERS, AND IMMIGRANTS.**

If any of the above class of men want work or information about the Country, or about buying their Horses, Harness, Oxen, Farm Implements or their supplies, let them go to the HARRIS HOUSE, corner of Sixth Street and Pacific Avenue.

The Farmers at this house club together and buy in quantities. By this system they can purchase at 10 per cent less than if you made single purchase.

Mechanics, by stopping at this House, are sure of work as the Proprietor has the hiring of a large number of men for the West.

Labourers can get any information regarding work they want.

You can also get, by stopping at the Harris House, good Bed Spring Beds, and everything clean and comfortable.

Our charges are One Dollar per day.

Contractors requiring men of any description please call at the

**HARRIS HOUSE,**

Corner of Sixth Street and Pacific Avenue.

**Steady Boarders 5 to 6 Dollars per week.**
